0. Executive Summary

Smart-View has a track record in Service Management implementations and its founder, Klaus Berghoffer has successfully launched the itSMF Romania chapter in fall 2004 and implemented service management in several Romanian companies as well as abroad.

Smart-View is EXIN accredited, authorized education center in Romania and trains ITIL V2 as well as the new ITIL V3; ITIL Version 3 is a complete refresh of ITIL published by itSMF international in July 2007. EXIN Certifications for V3 can be provided in fall 2007.

Smart-View offers ITIL trainings in Romania only with accredited trainers with a proven and long time track record, experience and several years in service management implementations in large organizations.

Smart-View has undergone a partnership with a well known Training Center that has been on the Romanian market for training since ten years.

Following trainings are offered:

- ITIL Foundations
- ITIL Practitioner
- ITIL Service Manager

The training provider provides all training material.
For in-house trainings a projector only is necessary.

0.1. Deliverables

Certification for participation
EXIN Certificate (optional)
All training handouts, case studies and the mock-exam in electronic format.

0.2. Location

Trainings can be provided in-house at the client or at the training location. Off-site trainings include lunch and coffee breaks.

0.3. Trainer & References

Trainers have more than 10 years experience in IT Service Management. See henceforth the attached CV.

0.4. ITIL Versions

Since July 2007 ITIL Version 3 is officially launched. All courses until end of 2007 cover ITIL V2 since the certifications will be available until end 2008, but also introduce ITIL Version 3 in detail;

0.5. Pricing for Certification

The certificate prices are approx. 160 EUR for ITIL Foundations and 440 EUR for ITIL Service Manager

0.6. Authorizations

Smart-View is an authorized Examination Center. The only active company in Romania that has acquired this authorization by itself without partnership.

3. ITIL SERVICE MANAGER

Course Type: in-house or at client premises
Attendees: ideally 12 persons (maximum 16 persons)
Language: English (Romanian translation on request)
Duration: 8 days (2 x 4 days or 2+3+3 days)

Examinations

Manager's Certificate in IT Service Management (ITIL Service Manager) covering two topics:

ITIL Service Manager Service Support

ITIL Service Manager Service Delivery

Training Goal

This course is the last in the ITIL Service Management learning path and has as goal to enable staff to be self-supporting in ITSM, create, implement, monitor and improve ITIL processes and act as self-supporting Service Managers within an organization or as independent consultant.

The course focuses on the added value of service management; all terms of ITIL Foundations training are recapitulated. Self Assessments and case studies through the course period are worked out in teams; each participant is able to present added values of all processes to an audience/team that has been determined with the Belbin team-roles methodology.

Target group

The Manager's Certificate in IT Service Management is aimed at managers and consultants in IT Service Management, especially those who are involved in implementing ITIL or advising on ITIL. The Foundation Certificate is a prerequisite for the Manager's Certificate in IT Service Management.

Prerequisite knowledge, skills and practical experience

- Higher educational level or level obtained through practical experience or self-study.
- The Foundation Certificate in IT Service Management.
- Good spoken and written language skills.
- Speaking skills, presentation skills, empathy, meeting skills, teamwork skills.
- At least two years professional experience as manager or consultant in the field of IT management.

Examination requirements

The examination requirements are:

- Analyze IT Service Management processes within an organization
- Designing organizational structure
- Describing the IT Service Management processes
- Assessing and auditing IT Service Management processes
- Implementing change processes
- Reporting skills
- Management skills

In course assessment

Part of the examination is made up of an in course assessment. Management skills and competencies, exam requirement 7, will be assessed by an EXIN-accredited training provider during the training course. In order to obtain the Manager's Certificate in IT Service Management, the result of this in course assessment must be satisfactory. A certificate in Service Management cannot be obtained from EXIN without the training and the in-course assessment approved by an accredited training provider.

SV-ITIL-2007	4.0	10/26/2007

10 hours of homework assignments
100 hours exam preparation

Certification

The attendants have the possibility to obtain a certificate from EXIN for the course taken in Romania via the EXIN authorized examination center Smart-View SRL. An accredited exams observer will be present.

4. ITIL V3 Foundation Bridge / APMG

Summary

The Foundation Bridge exam in IT Service Management, which leads to an APMG certificate, provides a fast track route to an ITIL® version 3 Foundation level of knowledge.

The exam highlights the new topics in ITIL® version 3 and candidates are made aware of the main differences on topics known from earlier ITIL® versions.

Candidates will need to demonstrate knowledge of the new content of ITIL® version 3 and the differences to well known topics from earlier ITIL® versions.

Candidates will also learn the basic concepts involved in these processes.

This provides candidates with sufficient information to anticipate and participate accurately in the change processes involved in the (partial) implementation of ITIL® version 3 in an organization.

Target group

The examination for the ITIL® version 3 Foundation Certificate is only intended for existing holders of Foundation certificates from earlier versions of ITIL® who want to bring their level of knowledge and understanding in line with the new content of ITIL® version 3.

Context

Exam candidates who have completed their APMG ITIL® Foundation exam can continue into EXIN's broad IT Service Management certification program.

Prerequisites

Foundation certificate in IT Service Management (based on earlier versions of ITIL®).

Exam requirements

Candidates are expected to prove their knowledge and understanding in the following topics:

- Service Management as a practice
- Service Lifecycle
- Key Principles and Models
- Generic Concepts
- Selected Processes
- Selected Roles
- Selected Functions
- Technology and Architecture
- ITIL® Qualification scheme

In-course assessment / Practical assignment
