

GOAT - Generic Online Application for Testing

Generic

Generic testing applications allow you test any topic, any field of activity, any difficulty, or any topic of your interest. Whether you want to compose a multiple choice test (IT knowledge testing), the test where answers have to be typed (personality tests, softskills), a test with binary answers (psychology tests) or a combination of all three above. Goat can do it. The ultimate top of the iceberg is to provide answers after a time interval to use GOAT for learning instead of testing. How easy e-Learning can be, without the buzz words and the fuzz.

//

There are no secrets to success. It is the result of preparation, hard work, and learning from failure.
{Colin Powell}

//

Online

GOAT has been designed for running online completely. None

of the users have to share a location; nevertheless GOAT is absolutely secure. An audit trail of all actions provides you security you want. Results are sent via email to the tutor and viewable in PDF format as evidence.

//

If you train hard, you'll not only be hard, you'll be hard to beat.
{Herschel Walker}

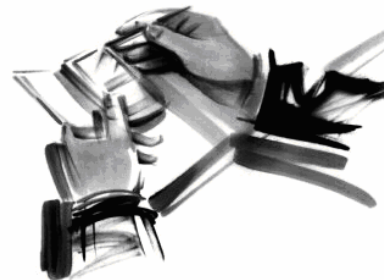

//

Application

Most applications you need to buy, learn, install, maintain, have personal taking care of. GOAT you can use from the second your logon credentials have been sent to you. We host it for you, we preconfigure users for you. The rest is full up to you.

You want to see what you get? Take a free test on the internet right away!

//

Obstacles are those frightening things that become visible when we take our eyes off our goals.
{Henry Ford}

//

//

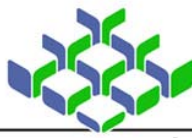

The secret of creativity is knowing how to hide your sources.
(Albert Einstein)

//

testing

You have seen it before. The testing application you can buy on the internet makes you dependent on providers and the supplier of the test. The quality of questions and difficulties of tests are mostly pre-defined and therefore fixed.

Use the GOAT for TESTING, LEARNING and PERMANENT KNOWLEDGE IMPROVEMENT within your organization

How can I Use it?

{The 4.5 steps for using the GOAT}

1. Create the user credentials: Tutor, candidate

You are automatically signed in as administrator once we have approved you as a valid user. Setup the teacher(s) and candidate(s) by simply entering name, user identification and email address.

2. Compose the test by selecting from the questions

Give your test a name and choose from one or more categories to compose a test for each candidate. Choose from the variety of categories and their questions with answers and set the available time you want your candidate finish the test.

3. Assign the test to a candidate

Nearly done. Assign the composed test or an older test to a candidate and by clicking assign

4. Wait until your candidate takes a test

Sit back and relax. You cannot do anything at this point if you are not the candidate or want to learn not test. It's your candidates turn to take the test. After logging on as candidate and starting the test, nothing more than answering questions as they appear can be done. Almost there!

5. View the result sent to your inbox by mail or in PDF

done! You can now see the result of the test in your inbox as email with the result attached in PDF or directly in the GOAT database.
